Billingsley Probability and Measure Solution Manual?

Hey, does anyone have the solution manual to Billingsley Probability and Measure? I am doing the self study and would like to know the answers to the problems. I am willing to pay as well.

Solution to Homework #1, 36

Solution to Homework #1, 36-754 27 January 2006 Exercise 1.1 (The product $\prod_{S \in \mathcal{D}}$ answers count-able questions) Let $\mathcal{D} = \{S \times S\}$, where the union ranges over all countable sub-sets S of the index set T . For any event $D \in \mathcal{D}$, whether or not a ... Source: Billingsley, Probability and Measure, third edition, Theorem 36.3

Huntsberger, Elizabeth A. Blood, Patrick Billingsley: Probability and Measure 0th Edition ...

MATH 6710: Probability Theory I

Measure Theory by Cohn or Real Analysis: Modern Techniques and Their Applications by Folland for measure theory background. Probability and Measure by Billingsley, A Course in Probability Theory by Chung, A First Look at Rigorous Probability Theory by Rosenthal for the main subject material of the course.

STAT 205A Home Page

If you haven't seen any measure theory it is helpful to read a little before the start of the course, for instance from the Billingsley or Leadbetter et al books below. Books R. Durrett Probability: Theory and Examples (4th edition) is the required text, and the single most relevant text for the whole year's course.

A Collection of Exercises in Advanced Probability Theory

I hope readers will find these solutions helpful as you struggle with learning the foundations of measure-theoretic probability. Of course, you will learn best if you first attempt to solve the exercises on your own, and only consult this manual when you are really stuck (or to check your solution after you think you have it right).
